

## Ask about therapy information

---

Ask what to expect or consider throughout treatment.

- What kind of infusion is ZYNLONTA<sup>®</sup>?
- Is ZYNLONTA<sup>®</sup> right for my specific condition?
- How well does ZYNLONTA<sup>®</sup> work?
- How is ZYNLONTA<sup>®</sup> given?
- How long does each treatment take? How often is ZYNLONTA<sup>®</sup> given?
- When can I start seeing results with ZYNLONTA<sup>®</sup>? How will I know it's working?
- Before taking ZYNLONTA<sup>®</sup>: Will I need to take any medications? Do I need to do anything else?
- How often will blood tests be done?
- Does it matter what therapy I was on before?
- Is the therapy different if I have relapsed?
- Would my therapy be different if the cancer had never responded to therapy before?
- What are possible side effects I should look out for?
- What are more serious side effects and which are more common?
- When should I contact your office about side effects?
- Is there anything I should avoid taking or doing while on ZYNLONTA<sup>®</sup>?
- What are some trusted sources that can help me understand my condition?
- What are the best ways to reach you when I have questions?
- How long will I be on ZYNLONTA<sup>®</sup>?
